May 2014 | Volume 1, Issue 3

CV-1 Model 7800 Check Valve

The Ruelco CV-1 check valve is designed to provide reliable one-way flow. The 17-4 stainless steel construction allows for high corrosion resistance in harsh environments. The CV-1 was designed with a high flow rate in mind with the orifice being equal to 1/4" ID tubing. The CV-1 can be disassembled and repaired without the need for special tools.

- 316 stainless steel construction (models to NACE MR0175 available).
- All soft seal design.
- Large Cv factors produce large flow rates.
- Small compact design.
- Simple operation allows for easy repair.
